Inquire Gillespie's Court.

Last evening in Squire Gillespie's court, Alonzo Belle, for assault on John Ernst, was fined \$5 and costs. Harvey Roy and Jess Dixon, who were engaged in a "crap" game at a resort at the upper market square, were held for a hearing this afternoon at 2 o'clock.

Blast Furnace Wages Advanced.

The blast furnacemen and laborers employed at the Top mill blast furnace, Belmont blast furnace and Martin's Ferry blast furnace, all owned by the Wheeling Steel and Iron Company, have received an advance of 10 per cent, making the second advance and placing the wages almost up to where they formerly were.

Licensed to Wed.

Clerk Hook yesterday issued marriage licenses to the following named parties:
Andrew Brown, aged twenty-two, and Lena Brown, aged twenty-one, both of Pittsburgh.
William F. Smith, aged twenty-six, and Mary E. Hodges, aged thirty-four, both of Belmont county, Ohio.

The Strike Declared off.

President William J. Smith, of the Flint Glass Workers' Association, yesterday ordered the men to go work at Rodger Bros' glass factory, at Bellaire. This is entirely satisfactory to a good many of them and would be to all if they thoroughly understood the situation. The works are all ready to resume and it is probable some of the men will be at work to-day.

Delinquent Tax List.

Yesterday the finance committee of the Board of County Commissioners met, examined the Sheriff's delinquent tax list and approved it. While some of the taxes marked delinquent it was thought could probably be made, it was also the opinion that in the average case the game would not be worth the powder. There were on the list of dogs assessed, for which the tax had not been paid, about three hundred, mainly in the city. A majority of those have been killed by the police in the past few months for non payment of city taxes.

The Cathedral's New Rector.

Rev. Father A. Montion, who was recently appointed rector of the Cathedral in this city, yesterday severed his connection with the Mountdeville Catholic church and the missions attached to it to assume his new duties here. He will be warmly welcomed by the Cathedral congregation, to whom he is no stranger, having often ministered here. His departure from his old charge will be very much regretted there. He sawed that charge faithfully for twelve years, and did great work in building it up. His success at Mountdeville has not yet been announced.

Wheeling Encampment Elects.

Last night at a meeting of Wheeling Encampment, No. 11, I. O. O. F., the following officers were elected for the ensuing term and installed: A. J. Seamon, grand patriarch; William McNary, high priest; Louis A. Huffman, senior warden; Walter Wills, junior warden; Jacob Morris, treasurer; Aaron Kelly, scribe. The following appointments were also made: Godfrey Schul, first watch; Samuel Darrach, second watch; J. J. Davis, third watch; William Clark, fourth watch; William Ellingham, guard of tent; H. Seamon and William Hornish, sentinels; F. B. Morris guide.

Dr. Goodnight in Town.

Dr. J. C. Goodnight, the new president of the West Virginia University, was in the city last night. He has looked the field over enough to see every indication of a handsome increase in the number of students when the next term opens. Wherever he goes he finds an aroused interest in the institution. He hears from the state generally the very best reports. The professors have taken hold with increased earnestness and all the signs point to the coming year as the most successful in the history of the university. President Goodnight will spend a great deal of his time getting into close touch with the people.

THE COLERAIN OIL WELL.

It is Still Gassing Strongly-Fifty Barrels put in the Tank.

There were several Wheeling people out at the Colerain oil well yesterday. Mr. George Heard, of the Natural Gas Company of West Virginia, who is interested in the well, also spent the day there and came in last evening. He at once telegraphed to Pittsburgh for gates to shut in the gas and oil flow.

From gentlemen who were out it was learned that the well was still putting out gas strongly and spraying oil over the top of the derrick. The oil was turned into the tank yesterday, and in the afternoon the tank filled up to the fifty-barrel mark. The owners still have great confidence in the well.

The Pursuit of Happiness.

When the Declaration of Independence asserted man's right to this, it designated an immortal truth. The blissful pursuit is on the road to happiness when he begins to take Hostetter's Stomach Bitters, the most efficacious regulator of the liver in existence. Equally reliable is it in chills and fever, constipation, dyspepsia, rheumatism, kidney trouble and nervousness. Use it regularly, and not at odd intervals.

THE CROP FAILURES

Of Which so Much was Heard in the Early Spring

ARE NOT VISIBLE IN THE MARKETS.

Grain and Hay seem to be the Only Staples that Suffered Perceptibly. Vegetables are Later than Usual, but Abundant and of Good Quality. A Good Market Yesterday.

A person who visited the Wednesday market in the Second ward would be tempted to think all the talk of damage by the frost in the spring and all the prophecies of crop failures were without truth. When he comes to buy hay, however, or his attention is directed to the poor and meagre yield of wheat, he will see there was some room for forebodings. Farmers say that oats, while the straw was short, are by no means a failure. The grain headed out fairly well and yielded a better average than was expected.

As to the fruits, no perceptible effect of the unreasonable frosts can yet be seen in the local markets, except the scarcity of cherries. Some of the finest peaches that ever came to Wheeling in July were on sale yesterday at about average prices for former years. They came from the Grape Island region, down the river. Lawton blackberries were also in market. These are ahead of time and of unusually good quality, while the raspberries this year beat the record. Strawberries were not quite up to what they usually are in quantity or quality. Apples are abundant and cheap.

It is said that tomatoes, while late, will begin to come in in even greater quantities than usual by next week. Home potatoes sold yesterday at thirty cents a peck, and were better than eastern ones at the same price. Peas and beans are becoming better and improving in quality. All the cucumbers are home raised, and are pronounced all right. Cabbage is plenty. It is being shipped away in quantities, and retails here two good heads for a nickel. It is said to be a drug in the market at Baltimore.

Cauliflower is unusually plenty and fine. Roasting ears made their first appearance from Mountdeville and up the river yesterday morning, and good ones sold at 20 cents a dozen.

Altogether patrons of the Wheeling retail markets have no reason to complain. The recent rains will make good pasture, and probably prevent a threatened rise in the price of milk and possible butter famine, and the staples from the farm and garden are about as plenty and do not rule much, if any, higher in price than last year.

LABOR DAY CELEBRATION.

The Committee Will Engage Mozart Park if all is Satisfactory.

The general committee of the Ohio Valley Trades and Labor Assembly on the Labor Day celebration on August 31 met again last night and completed arrangements for the affair. The committee on grounds reported that it had called on Mr. Anton Reymann, president of the State Fair association, in reference to the terms on which that place could be secured. While he was very considerate, he said the board must adhere to its former offer, both as to date and other terms. The committee was authorized to see the managers of the Mozart park, and if all was found satisfactory to engage that resort for the celebration. The committee will go there in a body on Sunday at 10 a. m. The committee accepted the offer of Typographical Union No. 79 to take the right of the parade, and employ Meister's band. The printers will therefore head the procession. In regard to the sale of privileges on the grounds, it was directed that no person be allowed to sell anything for a less tax than \$5 for the stand.

George W. Clifton was unanimously elected chief marshal, and he subsequently appointed Raymond Bauer as chief assistant. The staff has not yet been made up.

THE EYES.

It has been demonstrated that there is more eye and head aches from the defects of refraction and the use of glasses, not properly adjusted than from all other causes, and that it is absolutely necessary to have the eyes scientifically and carefully examined and fitted with glasses to secure relief and prevent injury. Those needing spectacles, or their eyes itchy or head aches when reading or sewing can consult and have their eyes examined and fitted with glasses by Prof. Sheff, the Scientific Optician, 1110 Main Street, next door to Snook & Co.

A Good Sandwich

Must be as good inside as outside. No matter how fine the bread, if the butter is "strong" and the filling "off" what a poor lunch it'll make.

And so with CLOTHING. You don't see the "insides," the 1001 things which determines the wear of the garments-good or bad-they're there. With us always good-for instance, take our new \$9.00 Black and Blue Worsted Suits. The cloth is strong, the garments well cut, the dye warranted-so much for the "outside." Now for the "filling:" The silk and linings and thread and buttons are of the very best, of course. Back of all, the closest inspection that no fault shall escape discovery.
